

URHOME INTERIORS
Designing the Extraordinary

INTERIOR DESIGN PORTOFOLIO

By URHOME INTERIORS PRIVATE LIMITED

ABOUT US

With over 6 years of experience in interior design, we have evolved our knowledge and expertise into a passion for creating thoughtful and purposeful spaces.

For us, interior design is more than aesthetics and layouts. It is about understanding how people live, work and interact with their spaces.

We believe every space should be functional, refined and uniquely suited to the people who use it. Through continuous learning, collaboration and attention to detail, we strive to create interiors that are both beautiful and meaningful.

Our goal is simple — to transform spaces into experiences that feel personal, functional and timeless.

Form Meets Function

Design should work first, then look effortlessly good.

Every element is thoughtfully planned to serve a clear purpose within the space — balancing functionality, comfort and aesthetics.

Practical by Design. Refined by Detail.

Concept & Planning

Space planning, design concepts & overall direction.

Design & Specification

Materials, finishes, furniture, lighting & detailing.

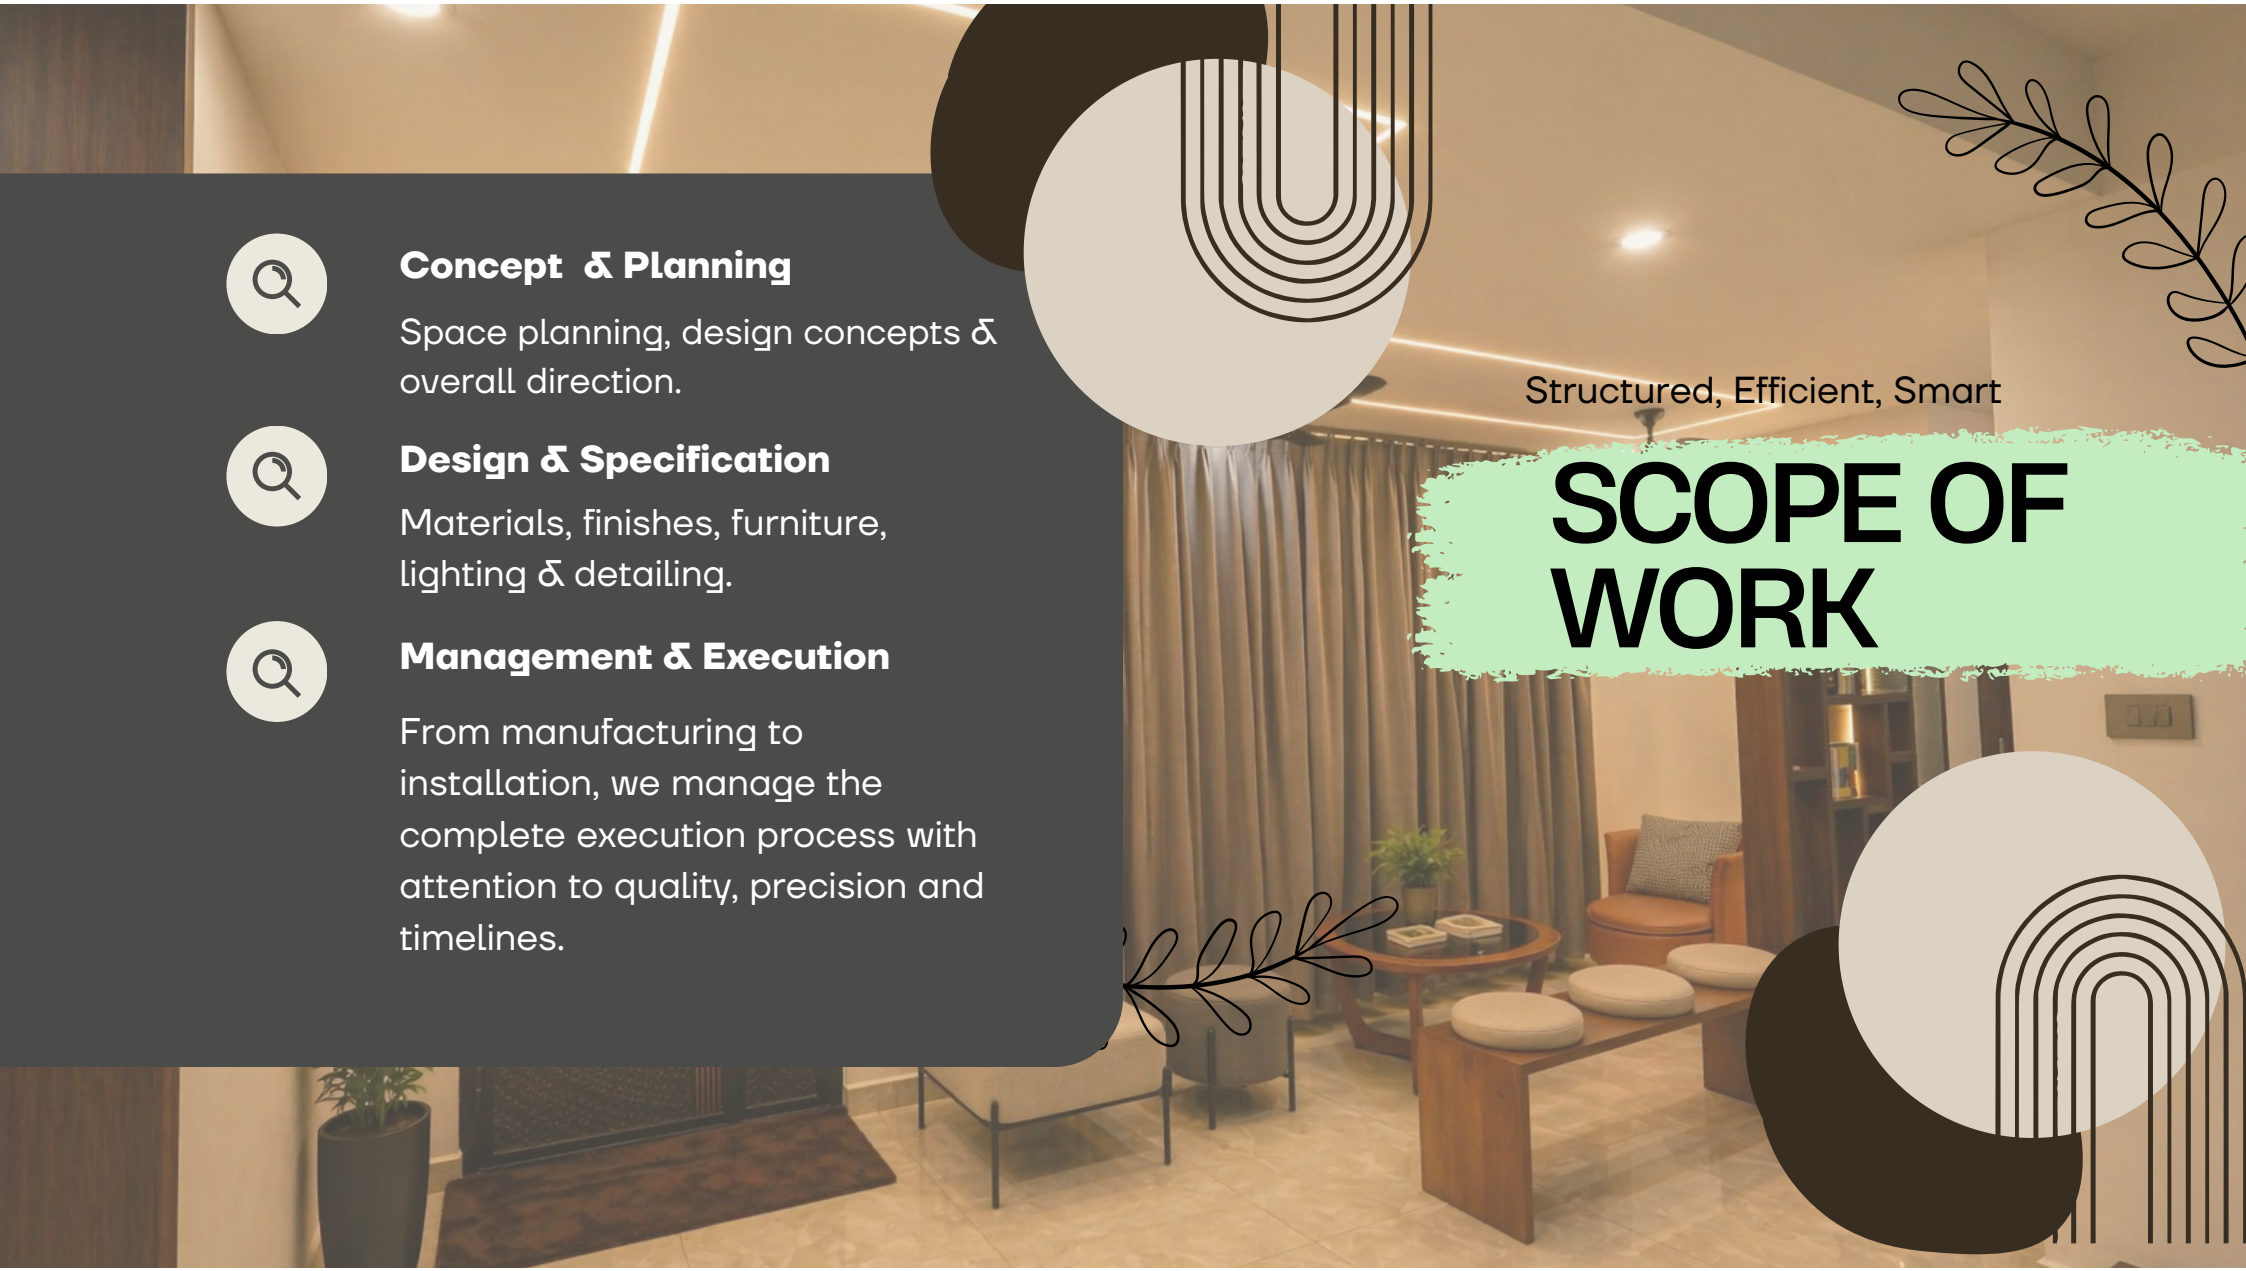

Management & Execution

From manufacturing to installation, we manage the complete execution process with attention to quality, precision and timelines.

Structured, Efficient, Smart

SCOPE OF WORK

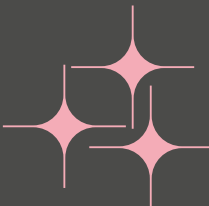

A modern bedroom interior featuring a large bed with a patterned duvet and a dark wood headboard. A ceiling fan is mounted above the bed. To the right, there is a decorative shelf with various items. The room has a clean, minimalist aesthetic with light-colored walls and a tiled floor.
